SUGGESTIONS  
concerning BERLIN-Crisis  
PROPAGANDA

1. Explain to the World that:
  - a) there are only 30 million communist in all the World, as to the Soviet own information.
  - b) far not all of these 30 million are dedicated or mad communists.
  - c) The few, or even all the 30 million communists are not dangerous for the billions of men constituting the mankind.
  - d) the about 10 million communists in Sov.Union can do nothing against the Free World if not helped by the hundreds of millions they now hold in their grip behind the iron curtain.
  - e) those Soviet communists could even not launch their Krushchew-hailed thousand megaton bombs against the Free World if not helped by the above mentioned masses who are not pro-communist.
  - f) the communists are betraying everybody: their own party-members and masses, the neutral nations, and the nations who still dare to confront them.
  - g) the progress made by the communists is just nothing if compared with this made by the free enterprise, or even with that made by the non-communist state-regulated (socialized) industries. Give a comparison of what an average worker earned before WW I in Tsarist Russia and in the United States of America - the difference was not too great, and give another for today.
  - h) America could have destroyed Sov Union long ago, when the latter had no A-bombs yet: we don't want to destroy anybody, we like to live and let others to live.
  - i) We wish, we are determined, to survive, and we will. We wish EVERYBODY BE FREE AND HAPPY, WELL NURISHED, except the few communists who oppose this and whom therefore, must be fought against.
  - j) In this our wish are included not only the people now living in the Free World, but also in the communist-held part of the world, the great PRISON.

2. Give these explanations in:

- a) our own NEWSPAPERS, in repeated articles,
- b) in Voice of America broadcasts to friendly and neutral peoples, in English as well as in the respective local languages.

This way some of the ideas will also penetrate the communist jamming and will be heard in Soviet-held countries better than when broadcasted on the special beams directed thereto and jammed most effectively. The communist will have to delute their jamming efforts.

- c) in the Radio Free Europe, and in the different Radio-of-Liberation broadcasts. To be better heard, those senders should use the frequencies of some Soviet own broadcasting stations. Our senders should interfere with short articles during the intervals in Soviet own program. This way we would get rid of the jamming, and the listeners could not be persecuted for listening to foreign broadcasts.
- c) Voice of America broadcasts to the communist-occupied countries, so the communists could not use the jamming stations now working against these broadcasts against our above-mentioned new broadcasts.

3. In all our broadcasts we should:

- a) WARN the communist-oppressed nations not to start un-organized or locally organized uprisings against the communists because such local affairs can lead but to disaster. ~~Rev. Khan~~
- b) EXPLAIN that it is THEIR COMMUNIST REGIME which is leading them to the doom, and therefore they must see how to help themselves against their own communist rulers without, however, giving the latter any reason and/or justification to start new purges.

FOR THE FUTURE:

Berlin Crisis is but a very small dot in our fight for SURVIVAL.

We MUST prepare and organize a concerted CIVIL WAR in all the Soviet- and/or communist controlled countries, so that those would not be able ~~to~~ to launch an all-out nuclear war.

1)

Therefore we need: A-powered, airborne, automaton radio-broadcasting stations circling over certain areas of the communist controlled countries, high enough not to be reached by the Sov. anti-aircraft defense.

2) Teams of specially prepared leaders to be flown in for communication and leading purposes immediately before the start of action.

3) Airborne troops to destroy those Soviet troops which can not be destroyed through the action from inside.

4) Billions of leaflets and tens of thousands of their rocket-like carriers, to duplicate the explanatory and propaganda work made through the broadcasting stations mentioned under point 1.  
the broadcasting stations mentioned under point 1.

5) On the Home-Fronts in the Free and Neutral countries clear division should be made:

a) who likes to survive and to work and fight for this,

b) who likes to surrender, or who thinks that he must surrender,

c) who is helping the communists, and why:

aa) communist creed,

bb) communist paid,

cc) communist threatened,

dd) out of the hope that by doing so he will survive when the communist will win.

Those of them who can be helped out of their trouble should be helped. Against the others the mankind must be helped effectively.
